SUMMARY

Investment and growth operator with a builder's foundation in applied AI. Pairs hands-on venture evaluation and PE/M&A research with corporate partnerships and go-to-market execution at an early-stage startup, after engineering production AI systems across enterprise revenue operations. Oriented toward evaluating, backing, and building companies.

EXPERIENCE

Founder's Office (GTM), Cube — Bengaluru | Jun 2026 - Present

- Lead outreach, PR, and partnerships for **Cube (cubehq.ai)**, an AI-native platform, building corporate and agency relationships from scratch and owning the full-funnel growth motion across channels.
- Expanded the platform's ICP from the US market into the Indian hospitality sector, standing up outbound and partnership motions for a new geography from scratch.
- Drove go-to-market for **Cite (citehq.ai)**, Cube's review-management product and AI Visibility (GEO) grader, across US and India marketing, advertising, and SEO agencies.
- Built and shipped **Cube CRM** (React + FastAPI), an internal CRM that tracks prospects, sequences, and demos in one place, replacing manual trackers with a single source of truth for the pipeline.

Business Data Integrity Specialist (Finance), Check Point Software — Bengaluru | May 2025 - May 2026

- Designed and deployed an end-to-end AI agent (Azure + Copilot) for prospect validation, discrepancy tracking, commission allocation, and attainment tracking, now in active production across Sales, Data Integrity, and Order Management.
- Maintained **99%+ data accuracy** across Salesforce and SAP for **10,000+** customer and deal records via daily audits, deduplication, and lead-to-cash reconciliation.
- Built Anaplan tooling automating commission, attainment, and prospect-validation workflows, cutting recurring data issues by **approximately 40%** via partner-hierarchy and SKU cleanup (Power Query, Salesforce Data Loader).

Venture Fellow (Cohort 10), The VC Fellowship — Bengaluru | Jan 2026 - Apr 2026

- Selected via a multi-stage process (**approximately 3 to 5% acceptance**). Ran deal sourcing, due diligence, and market analysis across deep-tech, fintech, and SaaS, including entity-resolution work that disambiguated complex corporate structures into precise, investable entities.

Research Associate (Strategy), Indian School of Business (ISB) — Hyderabad | Aug 2023 - Apr 2025

- Led empirical analysis of **500+ PE buy-and-build deals**, building econometric models (panel data, logistic regression, IV) to quantify diversification and acquisition synergies.
- Applied NLP (spaCy, BERT) to **2,000+ deal announcements**, investor reports, and earnings call transcripts to generate PE and M&A signals. Researched AI-human complementarity under Dr. Prothit Sen.

Technology Consultant (GenAI), PwC India — Chennai | Jan 2023 - Jul 2023

- Built and deployed LLM document-processing and retrieval pipelines (Hugging Face, OpenAI API, PyTorch, Haystack) and a Streamlit intelligence dashboard over **5,000+ pages** of documentation.

PROJECTS & PUBLICATIONS

- **Cosmo Health Investment Memorandum**: Authored a full investment memorandum on a Shark Tank India-backed health-tech startup, covering market sizing (TAM/SAM/SOM), unit economics, comparable transaction analysis, and IRR sensitivity modeling to underwrite a seed-stage investment thesis.
- **Sift (AI venture-evaluation workbench)**: Engineered a full-stack platform (React + FastAPI) to automate startup ideation and investor-style due diligence; built a multi-domain RAG knowledge graph and fine-tuned a custom LLM decision layer (LoRA/QLoRA) across SaaS, fintech, and VC contexts.
- **Publications**: "AI-Human Collaboration as Multi-Agent Adaptation" (arXiv, 2025), restructured through rigorous peer review with new multi-agent simulation models; "Home Layout Design by Semantic Parsing of Text" (Taylor & Francis, 2023).

EDUCATION

B.Tech, Computer Science & Engineering (ML & Data Science), PES University — Bengaluru | 2019 - 2023

CGPA 7.68/10 (Distinction) | Published thesis on semantic parsing for layout design

- Jury member for CIE Ignite Phase 2 startup presentations at PES University, evaluating early-stage student ventures.

SKILLS & CERTIFICATIONS

Investment & Analysis: Python, SQL, R, econometrics (panel, logit, IV), financial and unit-economics modeling, NLP-based signal generation (spaCy, BERT), Tableau, Power BI, Databricks

GTM, Partnerships & RevOps: Go-to-market strategy, growth and demand generation, outbound sequencing, corporate partnerships, pipeline automation, PR, product positioning, SEO, Salesforce, SAP, Anaplan

GenAI & ML: LLM/RAG architecture (Hugging Face, PyTorch, TensorFlow), AI agents and agentic frameworks, cloud deployment (Azure AI, OCI AI), Microsoft Copilot, OpenAI API, scikit-learn, Streamlit

Certifications: ML Specialization (Stanford), GenAI Fundamentals (Google Cloud), Math for ML (DeepLearning.AI), OCI AI (Oracle)

Languages: English (professional), Telugu, Kannada (native/bilingual), Hindi (professional)
